

108th Institute Interest Seminar Series

Tuesday July 18th, 2017

Time	Presenter	Title
3:00-3:30 p.m.	Dr. Songmei Sun Associate Professor (Molecular Photoconversion Devices Division)	Design highly active solar light photocatalyst by nanostructure control → (Abstract)
3:30-4:00 p.m.	Dr. Nikolay Dimov Post-doctoral Research Associate (Electrochemical Energy Conversion Division)	Carbon foams as catalyst for electrochemical CO ₂ reduction reaction (eCO ₂ RR) → (Abstract)
4:00-4:30 p.m.	Free discussion over light snacks and drinks	

Date & Time: **Tuesday, July 18th, 2017, 3:00 p.m. – 4:30 p.m.**

Venue: **Entrance lobby, I²CNER Building 1, Ito campus**

Chair: **Dr. Kulbir Kaur Ghuman, Post-doctoral Research Associate
(Electrochemical Energy Conversion Division)**
