

114th Institute Interest Seminar Series

Friday, October 27th 2017

Time	Presenter	Title
15:00 -15:30	Dr. Leonard Kwati Post-doctoral Research Associate (Electrochemical energy conversion)	Development of advanced proton conductor membranes for electrochemical devices by sequential tape casting → (Abstract)
15:30 -16:00	Dr. Ikuo Taniguchi Associate Professor (CO2 Capture and Utilization)	CO ₂ capture by polymeric membranes over H ₂ : mechanism and opportunity → (Abstract)
16:00 - 16:30	Free discussion over light snacks and drinks	

Date & Time: Friday, Oct. 27th, 2017, 15:00 – 16:30 p.m.

Venue: **2nd Floor Conference Room, I²CNER Building 1, Ito campus**

Chair: Dr. Vincent Thoreton, Post-doctoral Research Associate
(Electrochemical energy conversion)
