

Condolence

Professor Dr. Mahfuza Sharifa Sultana, Jahangirnagar University, Bangladesh, known as one of the prominent environmental chemists, passed away on April 24, 2019 in Dhaka, Bangladesh. She was only 52 years old. Prof. Sultana is survived by her husband, Professor Dr. Kamal Uddin (Treasurer of University of Dhaka), two daughters and one son.

She joined Saha Laboratory of International Institute for Carbon-Neutral Energy Research (WPI-I2CNER), Kyushu University as a visiting researcher and served until the last day of her life. She had been suffering from cancer and she fights against the deadly disease with courage and self-esteem.

We along with her former colleagues, students will miss her and remain thankful for what she has given to us as a scientist/mentor and as a memorable and charming person.

We extend our deepest condolence to her family and friends.
