

International Institute for Carbon-Neutral Energy Research 2018 I²CNER Annual Symposium

Challenges in Thermal Science and Engineering towards a Sustainable Society

January 31, 2018

I²CNER Hall, Ito Campus, Kyushu University

Vision

To provide a platform for discussion and debate on the science and engineering for efficiency increase in power generation, smart utilization of waste heat, nanomaterials and metal-organic frameworks for efficient heat pump cycles, next generation working fluids, and nanoscale transport and heat transfer mechanisms

Keynote Lectures

Thermal Waste Heat Utilization for Achieving Super Smart Community

Prof. Takao Kashiwagi
International Research Center of Advanced Energy Systems for Sustainability, Tokyo Institute of Technology

Different Regimes of Pool Boiling

Prof. Gautam Biswas
Director
Indian Institute of Technology Guwahati
